          C                  Em    C    Em  
It's you that I adore

How could I count the ways?  
          C                  Am  
For I have found with you

A love so pure and true  
          D                  Em    C    Em  
That nothing breaks the fall

                  Em    C    Em  
Well maybe I'm in awe  
          C                  Em    C    Em  
Just maybe I'm amazed  
          C                  Am  
When every road I choose  
          G/B                  C  
Begins and ends with you  
          D                  A    C    D  
I'm finally not alone

Chorus:

Em          C                  G                  D/F#  
Love like ours burns like fire, dusk till dawn  
Em          C                  G          D/F#  
Endless light giving proof  
Em          C                  G                  D/F#  
Love like ours answers why we were born

I was confused... then there was you
