

Deth Starr
Tenacious D

NOTE: These aren't the official lyrics, this is just how I transcribed them. If you could help in the comments on the ones I just didn't get (I labeled them), that would be of great help.

A song of the NEW Tenacious D record, Rize of the Fenix, currently streaming at this very moment at rizeofthefenix.com! However, I whole-heartedly suggest out of the goodness of my heart that you buy this record when it is unleashed on May 15th, so you can support some REAL rock, and the 2 gods who rock your face until you have to drink through an IV, Jables and Kage. D for life!

While most of the chords of this song are power chords, the intro/outro chords are very jazzy. I'm not sure about the exact structure, but here's my best guess based on my ears:
