

**All The Same**  
**Tenth Avenue North**

Verse 1:

**D2**                    **A**                                    **E**                                    **F#m**                                    **D2**  
A thousand voices, a thousand lives, a thousand prayers rise in the night  
**A**                                    **Esus**  
What is it we seek  
**D2**                    **A**                                    **E**                                    **F#m**                                    **D2**  
So many stories, Lord, I hear all these questions in my ears  
**A**                                    **E**  
Can we come out clean

Pre-Chorus:

**D2**                                    **A**                                    **E**                                    **F#m**  
Different faces, Different fears, Different failures lead us here  
**D2 A**                                    **E**  
Show us how

Chorus 1:

**A**                                    **E**  
We re all the same, all desperate for a change  
**D2**                    **A**                                    **E**                                    **A**  
We re all the same, we need your love, we need your love

Verse 2:

**D2**                                    **A**                                    **E**                                    **F#m**                                    **D2**  
We take our secrets to the grave, spend our lives out in the shame  
**A**                                    **Esus**  
A - afraid to show our need  
**D2**                                    **A**                                    **E**                                    **F#m**                                    **D2**  
But as we run our hands along these scars may they tell us who we are  
**A**                                    **E**  
We are the re - deemed

Pre-Chorus

Chorus 2:

**A**                                    **E**  
We re all the same, all desperate for a change  
**D2**                    **A**                                    **E**  
We re all the same, we need your love  
**A**                                    **E**  
We re all the same, with hands held out for grace  
**D2**                    **A**                                    **E**                                    **D2**  
We re all the same, we need your love, we need your love
