One Blood
Terence Jay

Terence Jay - One Blood (chords)

The first thing i wrote here. Creds to my guitar teacher for helping me find the

chords for the song! =)

INTRO (chords are **B**,**F#**,**E**)

```
                    B       F#       E
In the far away fires
                      B        F#       E
Where the hills forever burn
                    Ebm       C#m
At the feet of our heroes
              G#m      E/A     G#m
We try hard to learn
                  B        F#  E
But the lesson is lost there
                       B      F#  C#m
In the smoke and the mud
                Ebm               C#m              B
That we are one flesh, one breath, one life, one blood

F#        E       B     F#      E

                  B       F#       E
I stood by the river
                    B     F#     E
That ran red with shame
                  Ebm            C#m
I stood in the killing fields
                G#m     E/A  G#m
Where death had no name
                B      F#      E
I stood with my brothers
                B      F#      C#m
And away it flood
                Ebm             C#m              B
And we were one flesh, one breath, one life, one blood

F#        E       B     F#      E

                   B      F#   E
Then I felt to the ground
                  B      F#     E
Tasted ashes on my tongue
                Ebm                C#m
```

```
Thinking that only the dead
               G#m           E/A     G#m
Are forever young

[SOLO]  B,F#,E

                        B         F#        E
There was peace in the twilight
               B       F#        E
And for a moment among
                       Ebm        C#m
It was a world without danger
          G#m        E/A    G#m
A world without war
                        B               F#        E
And I will take all your suffering
          B       F#        C#m
It will do any good
               Ebm               C#m               B       F#        E
Cause we are one flesh, one breath, one life, one blood

[Outro] B  F#        E
```
