

Zai Shui Yi Fang

Teresa Teng

Hi. My name is Jeff Hao. I arrange songs for easy piano solo and chords and put them on Hao Staff (a kind of piano tab that anyone can read and play). They are all free for people to download (check out haostaff.com).

In my work, I need to figure out the chords first (accurately). I will share all my work here as well for the guitar players. You will notice the unique format I came up for myself in matching the chord change with the right word (or part of the word). Being a guitar player, I find this format much easier to read and sing along. It also shows the chord progression structure more clearly for easier memorizing. Enjoy!
