

Flesh For Bones
Terra Naomi

Tabbed by: Krista

Tuning: dAGDAD (high to low) with a capo on first.

First of all, I'd just like to let everyone know this is my first real tab... I'm only with chords, so if this isn't the best, forgive me! Obviously it won't be perfect, no can every note in the right place, but I tried. Let me know if you have any errors.

I know how I set it up might seem kind of confusing - but if I had put everything in, it would be incredibly long! So hopefully this works out.

Verse 1:

I?m sitting here frozen in this bed I made
Considering the weight of the bricks I laid now that I?m through
One by one sealed every crack that I could slip between to find my way back
Find my way back home to you

Pre-Chorus:

And I?m burning all my bridges
with these matches I light
To illuminate my path to what is right
And even if it?s true what they say
that you can?t go back home
once you?ve cast it away
I would still have left tonight

Chorus:

You know baby I would be with you if I could
To trade my flesh for your bones
I would, I would, I would, I would, I would?

You know baby I would be with you if I could

To trade my flesh for your bones
I would, I would, I would, I would, I would?

Verse 2:

I carry with me on my way
All the ghosts of all the love
that I let slip away
The heavy weight of promises made
That if I could exonerate
I might just lift off today

[Pre-Chorus]

[Chorus]

Verse 3:

I chased your memory from my mind
But every song I write is just a wish to find you, near or far
Through all the tears and all the time
That I been running blind
I still ain't got to where you are

[Pre-Chorus]

[Chorus]

Outro:

You know baby I would be with you if I could
To trade my flesh for your bones
I would, I would, I would, I would, I would?

I would, I would, I would, I would, I would
I would, I would, I would, I would, I would, I would
