

Suns Bright
Thalles Cabral

C **Em**
I ve been waiting you for a long time
C
And you just left me in the corner
Em
Of the world last night

C **Em**
I could see the whole sunshine
C
Suddenly the sky began to fall
Em **Bb**
And the rain wet your heart

F **C**
The sun shines for you
Bb
Can t you see the intensity of it s bright
F **C**
Somebody dreams about you
Bb
That s the day, it s gonna happen tonight
F **C**
Everything will be alright

C **Em**
It seems that you forgot all the things
C
That we ve been through for all those years
Em
And we promised to keep

C **Em**
You decided to rip out our page
And drop in the wind
C **Em** **Bb**
As if everything had been a waste of your time

F **C**
The sun shines for you
Bb
Can t you see the intensity of it s bright
F **C**
Somebody dreams about you
Bb
That s the day, it s gonna happen tonight
F **C**

Everything will be alright

Bb **F**
And when you least expect
Bb **F**
The love may find you again
Bb **F**
And there s nothing you can do
C
But love

Bb **F**
And when you least expect
Bb **F**
The love may find you again
Bb **F**
And there s nothing you can do
C **Bb**
But love back

F **C**
The sun shines for you
Bb
Can t you see the intensity of it s bright
F **C**
Somebody dreams about you
Bb
That s the day, it s gonna happen tonight
F **C**
Everything will be alright

Bb
Can t you see the intensity of it s bright
F **C**
Somebody dreams about you
Bb F
That s the day, it s gonna happen tonight
Bb F Bb F
Tonight, tonight
C
Everything will be alright
