Bm D A
Let s go to a place far away
F# Bm
Where they don t know who we are
D A
I can t lie to you, baby
F# Bm
Kids just want acid, love and play hard

D A
I can t find all the answers
F# Bm
I m wasted to live in bars
D A
I ve tried too hard to keep me sane
F#
It has been such a beautiful fight

Bm G D
Live slowly, die whenever
F# Bm
Follow me down to Utopia tonight
G D
Please don t tell your parents
F# Bm
I m gonna make you feel electrified

G D
We are so fucking good together
F# Bm
It all makes sense when we dance all night
G D
Let s pretend tomorrow night never happened
F#
Come on, baby. High five for low lives

Bm D A
You know me just by the look
F# Bm
You say baby, angst is in your eyes
D A
We re ugly, but we have the music

F# **Bm**
Leonard Cohen was right all this time

D **A**
I feel my bones growing inside
F# **Bm**
It hurts, I m weak, but I won t cry
D **A**
I m a Pisces, and I miss something
F# **Bm**
That I have never lived in this life

G **D**
Live slowly, die whenever
F# **Bm**
Follow me down to Utopia tonight
G **D**
Please don t tell your parents
F# **Bm**
I m gonna make you feel electrified

G **D**
We are so fucking good together
F# **Bm**
It all makes sense when we dance all night
G **D**
Let s pretend tomorrow night never happened
F# **Bm**
Come on, baby. High five for low lives
