

**Long Island
That Dog.**

Artist: That Dog
Song: Long Island
Album: Retreat from the Sun

Verse 1:

you re pretty dreamy for a boy from long island
 you should come to see me on my western horizon
 seems as though it s cause we re never meant to meet
 but I just look at you and know you re pretty sweet
 i want to set a place for you at my table
 we can sit forever watching reruns on cable
 take you driving in my brother s beat up car
 sharing a cigarette and wish upon a star together

Chorus:

so you say you like my shirt (i like your shirt)
 and you say you ve got a lot just like them (i ve got a lot just like them)
 and i hear you wrote a song about me (la la la la)
 by definition, a crush must hurt

and they do

and they dooooooooooooooooooooo
 just like the one i have on you.
