      Eb G#
Are we awake?

Am I too old to be this stoned?
Вb
                 Eb
                                G#
Was it your breasts from the start?
               Eb G#
They played a part
  {\tt Bb}
                Eb G#
For goodness sake
           \mathbf{E}\mathbf{b}
I wasn t told you d be this cold
Now it s my time to depart and
             Bb
                                G#
I just had a change of heart
    {\tt Bb}
                     Eb
I ll quote on the road like a twat
          Bb Eb
And wind my way out of the city
                        Eb
       G#
                  Вb
Finding a girl who is equally pretty won t be hard
                 Вb
Oh, I just had a change of heart
D G A (x7)
Eb G#
           Bb
You smashed a glass into pieces
    Bb
That s around the time I left
           G#
                Bb Eb
```

```
And you were coming across as clever
                                Вb
                     G#
                                            Eb
Then you lit the wrong end of your cigarette
            {\tt Bb}
                        Eb
You said I m full of diseases
G#
              Bb
                             Eb
Your eyes were full of regret
          G#
                       {\tt Bb}
And then you took a picture of your salad
               G#
And put it on the Internet
          G#
                    And she said...
[Refrain]
Eb/G
      Eb/F#
 I ve been so worried about you lately
                Eb/F#
You look shit and smell a bit
                Eb/F#
                                Eb/E
You re mad thinking you could ever save me
Eb/G
Not looking like that
[Verse]
Вb
               Eb G#
                                  Вb
You used to have, a face straight out of a magazine,
               Bb
                    Eb
Now you just look like anyone,
             Bb
I just had a change of heart,
           Bb
I feel as though I was deceived,
             Bb
I never found love in the city,
                Вb
                               Eb
I just sat in self-pity and cried in the car,
             Bb
I just had a change of heart
G#
      Bb
         Then she said....
[Refrain]
        Eb/F#
 I ve been so worried about you lately
      Eb/F#
You were fit but you re losing it
Eb/G
        Eb/F#
                         Eb/E
                                       Eb
```
