

She Lays Down
The 1975

[Intro/Verse]

```

E|-----3-----3-----|
B|---/3---1---0-----0-----1-----0-----|
G|---0---0---0-----0-----0-----0-----|
D|-----0h2-----|
A|-----|
E|-----3-----3-----3-----3-----3-----3-----|
    
```

It s not exactly what he s playing but just mess around with something like this during the verse andyou should sound good. If you want to strum just strum a G and hammer on the 2nd fret on the D string every once in a while.

Third line of the verse (The Chemicals that make her laugh... Even though her son is gone... She just wants to feel something... etc.) it change to a D then Back to a G, something like this:

[Verse]

```

          G#
And she lays down on her bedroom floor
          Eb
The chemicals that make her laugh
          G#
Don t seem to be working anymore
          G#
She tries her best, but it hurts her chest
          Eb
And even though her son is gone
          G#
She d like to love her child nevertheless
    
```

Just repeat that for all the verses.

[Chorus]

(The Chorus is where it gets a bit tricky, here s my interpretation of it)

```

Eb          G#          F
And I don t think that s asking for too much
Bbm          Eb          G#          F          C#
And when I go to sleep it s when she begins to weep
          C#m          Eb          Ebmaj7
    
```

She s appalled by not loving me at all
 C# Eb
 She wears a frown and dressing gown
 G#
 When she lays down

(The most important thing is the play the chorus with a sort of descending bass line
 so I finger the chords something like this)

She s Appalled by not loving me at all

```

E|-----
|
B|-----3-----3
|-----|
G|-----0-----0
|-----|
D|-----1-----1-----4-----4
|-----|
A|-----3-----3-----3-----3-----5-----5-----5-----5-----4
|-----|
E|-----
|
  
```
