The City
The 1975

[Verse 1]

```
B                                            G#m
Don t call it a fight when you know it s a war.
E                                    F#
With nothing but your t-shirt on.
B                                       G#m
And go sit on the bed  cause I know that you want to.
E                                            F#
You got pretty eyes, but I know you re wrong.
```

[Verse 2]

```
B                                      G#m
And don t call it a spade if it isn t a spade.
E                                 F#
And go lie on the floor if you want.
 B                                                         G#m
The first bit of advice that you gave me that I liked was they re too strong,
too strong.
E                                          F#
Get in the shower if it all goes wrong.
```

[Bridge]

```
        B                                              G#m
Yeah you wanna find love then you know where the city is
            E                                            F#
Yeah you wanna find love then you know where the city is (x2)
```

[Verse 3]

```
B                                    G#m
Yeah counting cards was the best job he ever had.
Cleaning up.
E                                 F#
He got good with his 4 s and his 2 s.
B                                    G#m
That community service was the best job he ever had.
Cleaning up.
E                           F#
He got sick on the floor and his shoes.
```

[Chorus]

```
        B
Oh and she said it s your birthday,
          Ebm
Are you feeling alright?
     E
The next one s the MD.
            F#
You ll be feeling just fine.
       B
Your brother is just sat there,
          Ebm
You said he felt snide.
      E                            F#
You hope that that boy will be alright.
```

```
        B                                           G#m

        E                                              F#
Yeah you wanna find love then you know where the city is (x2)
```

```
        B                                           G#m
