Let the camera linger on your perfect skin

Your widows peak and your lucky grin

Csus2 **G**
As you turn to go

Let there be a record of your gorgeous voice
The turn of phrase that filled my days with joy
Something like Bing singing soft and low
As you turn to go

C **G** **D**
I know I`m not supposed to say I`m sorry

C **G** **D**
I know you`ve had more loves than Mata Hari

C **G** **D**
But you know you`re the star of my life story

G
And I`m so sorry

Let the poets struggle to describe your heart
Your art of love and your love of art
Well, if you ever loved me
Tell me so
As you turn to go
