G#m   **F#**
    All the windows,
          B
Swear to miss you,
        C#   **G#m**
And the doors are cell block tight,
          F#
Sweet sedation,
              B
Sweep the issues,
              C#
And the clocks about to strike
E   **F#**
Did it call you down,
                        G#m
Are you back just yet,
                        B
Waiting now please come set me free,
E   **F#**   **G#m**
And the only sound is a minute left.

G#m   **F#**
Along the staircase,
                B
I dream to hear you,
        C#   **G#m**
In a whisper quiet room,
                F#
Space for thinking,

```
            B
Space to scream to,
          C#
But the echoes sound like you,
E                   F#
Not the stars at night,
                  G#m
In a pitch black sky,
                B
I don t know just wants to see you
E               F#                    G#m
