Verse 1

C G A(minor)

Hold on tight

C G A(minor)

Wrap your arms around me til your knuckles are burning white

C G A(minor)

All your tears

C G A(minor)

Couldn t match the bitter taste of all these wasted years

C C [Both times one strum]

You take take

Everything that wasn t even yours

G G [Both times one strum]

Wait wait

You don t got a hold of me anymore

(Chorus)

C G

In a clear view there s a silhouette

A(minor) F

And I watch you and I can t forget

C G

Knew we were done when you locked that door

A(minor)

Yeah I figured it out now

F

Breaking s what the heart is for

C G

When I see you in a silhouette

A(minor)

And you hold close

F

Do you feel regret

C

G

Keeping me down when I hit that floor

A(minor)

And I figured it out girl

F

Breakings what your heart is for

Repeat for the rest of the song

For so long

I've had to bite my tongue but what's the point if the feelings gone

I turn my head

Learned I only see some memory but all I see is red

Don't don't

Say it didn't happen that way

I won't won't

Believe another word that you say

(Chorus)

In a clear view there's a silhouette

And I watch you and I can't forget

Knew we were done when you locked that door

Yeah I figured it out now

Breaking's what the heart is for

When I see you in a silhouette

And you hold close

Do you feel regret

Keeping me down when I hit that floor

And I figured it out girl

Breakings what your heart is for

Yeah breaking's what your heart is for

Yeah breaking's what your heart is for

And not a soul sleeps

Another heart skips a beat

It's every note that you wrote and I hope that you choke on the lines

You're wasting my time, another heart beats tonight

(Chorus)

In a clear view there's a silhouette

And I watch you, no I'll never forget

Knew we were done when you locked that door

Yeah I figured it out now
Breaking s what the heart is for

When I see you in a silhouette
And you hold close
Do you feel regret
Keeping me down when I hit that floor
And I figured it out girl
Breakings what your heart is for
