Gonzo
The All-American Rejects

```
      G#
I ll never forget when we started out

A beat of the drum, a face in the crowd
      C#
It s better this way, it s better this way

How far we ve come now not a soul can change

    G#
Remember the road running under our feet

We d shoot for the stars but we d aim at the trees
      C#
It s better this way, it s better this way

Gambling with life it was our turn to play

        G#
It s time
                                        C#
Only when you look forward can you see behind?

We bought the ticket so we ll take the ride

G#
Every trial and every test

We d drive to the East and we d fly to the West
        C#
Just running away, just running away

We can be different  cause they re all the same

G#
Every night that we d ever start

In every beat of every heart
    C#
Is running way, just running away

Catching our breath at the end we could say
```

```
      G#
It s time

                                            C#
Only when you look forward can you see behind?
                                            G#
Every taste we could get was just sweet sublime
                                        C#
Holding on to the moment we let go alive

We bought the ticket so we ll take the ride

Fm
Day after day in the light
        C#
We re glowing in the dark
G#
Standing was the sketch
        D#
Where falling wasn t hard
    Fm
We lost ourselves to find
          C#
We re somewhere down the line

        G#
It s time

For some it s a God, for me it s a fact
    C#
We make a mistake and try taking one back
      G#
It s better this way, it s better this way

Out of the grind and then into the grave

        G#
It s time
