```
A                      E
Hereâ€™s another pity
Dadd9
Thereâ€™s another chance
A                      E
You tried to learn our lesson
Dadd9
But you canâ€™t
A                      E
If we could burn this city
Dadd9
And the futures ending past
A                      E
Without a change our lives will never last
Dadd9
Weâ€™re going fast
```

[Chorus]

```
A                      E                      Dadd9

A                      E                      Dadd9
If it doesnâ€™t matter then just turn around
A
We donâ€™t need our bags
E                      Dadd9
We can just leave town
A                      E                      Dadd9
You can sit beside me when the world comes down
```

When will we know how?
A **E** **Dadd9**
A man says from the sidewalk to the crowd

And we could change the weather
Dadd9
If we wanted to ourselves
A **E** **Dadd9**
And if we cant I guess we all need help I need help

[Chorus]

A **E** **Dadd9**
You can sit beside me when the world comes down
A **E** **Dadd9**
If it doesnâ€™t matter then just turn around
A
We donâ€™t need our bags
E **Dadd9**
We can just leave town
A **E** **Dadd9**
You can sit beside me when the world comes down

[Bridge]

F#m **Dadd9**
We say, we do
A **E**
The lies, the truth
F#m **Dadd9**
And all I need is next to me

A, E, Dadd9 X 4 (Same rhythm as the chorus)

[Chorus]

A **E** **Dadd9**
You can sit beside me when the world comes down
