There was a day

You wanna stay  
                  **Am**  
But since you wanna play

We can finally say we re through  
          **Am**                  **C**      **G**                                  **F**                  **G**  
There are times you re so impossible and you ask me to go

[Chorus]

**C**  
I ll leave when the wind blows  
                                  **G**  
Take a breath and there it goes  
                                  **Em**  
I ll be outside of your window  
                                  **F**  
I ll pass by but I ll go slow  
                                  **C**  
I ll leave when the wind blows  
                                  **G**  
You can scream there s just echoes  
                                  **Em**  
Pass outside of your window  
                                  **F**  
You ll be sad that you let me go  
  
I ll leave but just know

[Bridge]

(D/F#- 2x023x or 254xxx)

**Am**  
As I lay in solitude  
  
          **G**  
Oh What s a boy supposed to do  
          **F#/D**  
I Shake the very thought of you  
**F**  
Me together, I remember  
          **Am**  
Late nights when I stayed up late  
          **G**  
All I do is wait and wait  
          **F#/D**  
Your never coming home to me  
          **F**  
That s the hardest thing to see  
**C**  
I got to breathe  
          **Am**  
You can t take that from me  
          **G**                                  **F**

We can finally say we're through

[Chorus]

I'll leave when the wind blows  
Take a breath and there it goes  
I'll be outside of your window  
I'll pass by but I'll go slow  
I'll leave when the wind blows

You can scream there's just echoes  
Pass outside of your window  
You'll be sad that you let me go  
On every face you'll ever know  
And everywhere you ever go  
You'll feel when the wind blows

[Ending]

**C**
