Power people/ the anderson shelter  
opening : **E E E E7**

Well there was Kennedy  
And there was King  
There was John  
There was Jim  
They did come,to teach and sing  
To save our souls,forgive our sins  
Just like Jimmy  
Paired Up with Jones  
So alive in my headphones  
They did bring,some kind of peace  
And in a sense of pure release

**C C/B A**

There were others with different ideas  
Ruled the world with paranoia and fear

**F D**

By the slaughter of a sacred cow  
To try and herd the supply,cattle,somehow

**G**

Give the power to the people now

**D C**

Time for us to kill off the soul cash cow  
Give the power to the people now  
Time for us to kill off the soul cash cow

**E E7**

Power,people,now  
Power,people,now  
Power,people,now  
Power,people

Well in came Bob,with a different way  
Of what the others tried to say  
And Mr.Marx and Che  
Wanted every man,to just get paid  
Like Jesus Christ  
Whatever he s called  
To live on,he had to fall  
Well all he brung  
Was a brand new peace  
And in a sense of pure release

But there were others with different ideas  
Ruled the world with paranoia and fear  
By the slaughter of a sacred cow

To try and herd the supply,cattle,somehow  
Give the power to the people now  
Time for us to kill off the soul cash cow

Give the power to the people now  
Time for us to kill off the soul cash cow

Power,people,now  
Power,people,now  
Power,people,now  
Power,people

Well in kicked Lee  
With a fist of fury  
Like Ghandi s  
Silent purity  
Took out Andy, for his tins of beans  
A martial art, won it seems  
Its not omit  
The suffragettes  
Like Joan of Arc  
And a Welsh princess  
Mama Cass,Marilyn Manroe  
I had suspicions  
Now i know

But there were others with different ideas  
Ruled the world with paranoia and fear  
By the slaughter of a sacred cow  
To try and herd the supply,cattle,somehow  
Give the power to the people now  
Time for us to kill off the soul cash cow

Give the power to the people now  
Time for us to kill off the soul cash cow  
Give the power to the people now  
Give the power to the people now  
Give the power  
Give the power  
Give the power to the people now!
