And overthrown

I used to know you

I never got you back

I tried to show you
       F
But now I bleed in black

[Chorus]

You take me down
          F
Then you shut down
        Am
Always
      C
Run far away
        Dm
Now I m face down
        F
In this ghost town
          Am
Sideways
         C
Run far away, far away
        Dm
You take me down
          F
Then you shut down
        Am
Always
       C
Run far away
        Dm
Now I m face down
        F
In this ghost town
          Am
Sideways
         C
Run far away, far away
```
