

Dignified Dignitary
The Apples in Stereo

I was surprised this wasn't on here, because it's a great song, so here it is.

EDIT: The G is actually more like a C/B. It sounds good either way.

D C C G
You must try harder to remember
D C C G
When you are living in the future
D C C G
to stay connected to your brother

A A G Ab A

(Same chords as first verse)
Even in the middle of the city
When you are flying in the taxi
above the people and machinery

Chorus:

A A G Ab A tell it to the dignitary
D D C C# D she's gonna take you down
A A G Ab A tell it to the actuary
D C C G G Ab A
and she's gonna tell you, tell you how

G Ab A

Verses:

You must try harder to remember
when you are scanning with your visor
to keep the faces with the numbers

You must try harder to depressurize
when you are looking at the night sky
the starlight filters through your mind's eye

Chorus:

tell it to the dignitary
she's gonna take you down
tell it to the actuary
and she's gonna tell you, tell you how
