

Troubles Somehow
The Audreys

A distinct lack of Audreys music here!

This one is fun!

A bit of a bluesy feel. Dont be afraid to swing it a bit.

I find when it s just me without the band behind me, a bit of blues driver or overdrive

goes a long way to fill the gap.

Mute chords for verses and let em ring for chorus to really get some dynamics going.

Very easy song so have fun with it. Listen to the original on the Sometimes the Stars

album for some guidance on timing.
