Verse: **C F**

Morning comes and i have spent  
every decent thing i am  
pockets empty now its you and me  
i ve been foolish rash unruly  
taking pride in all i have  
taken from you now its you and me

Chorus: **C G/B Em F**

so this is love when i give my heart to everyone but you  
and this is love when i have turned my back away from you  
this is love when i have left you for the selfish things i do  
this is love that you still love me... in spite of me

**C F**

Seconds pass and i think back
