

My Lady And The Mountain
The Avett Brothers

Capo I

D **G**
I brought you to the river
D **G**
to watch the fish swim by
D **G**
and lay around that grassy bank
D **G**
and breathe in that blue sky
D **G**
i brought you to these waters
D **G**
to see what you could see
D **G**
the difference in the two worlds
D **G**
cant help but frighten me
E7 **D**
cause darlin its been a long time
Bm **A7** **D**
since ive seen you smile that way at me
E7 **D**
darlin just feel the warmth here,
Bm **A7** **D**
happy s not the word, you make me free

(Same for the rest of song)

i brought you to the mountains
to watch the clouds float by
the wind here gives me shivers and the freedom makes me cry
and being with you darling
forget what we have not
just being at the top here
can convince anyone theres a god
cause darling its been forever since ive seen you smile that way at me
darling just feel the warmth here, happys not the word, you make me free

make me free now

i gave you my decision
regardless wrong or right
the hills they make me feel good
they make me feel alive
like singing with my family on a sunday afternoon
like laughing in the morning wrapped up tight with you

but darling its been a long time since ive seen you smile that way at me
darling just feel the warth here, happys not the word, you make me free
no no happys not the word you make me free
no no happys not the word you make me free
