If I weren t leavin , would I catch you dreamin								
And if I weren t gonna be gone now, could I take you home								
And if I told you I love you, would it change what you see								
And if I was staying, would you stay with me								
And if I had money, would it all look good								
And if I had a job now, like a good man should								
And if I came to you tomorrow, and said let s run away								
Would you roll like the wind does, baby would you stay								

My heart is dancin , to a November tune
And I hope that you hear it, singing songs about you
And I sing songs of sorrow, because you re not around
See, babe I m gone tomorrow, Baby follow me down

I don t know why I have to, but this man must move on
I love my time here, didn t know til I was gone
November shadows, shade November change
November spells sweet memory, the season blue remains
(Slow Tempo)
November spells sweet memory, the season blue remains

Your yellow hair is like the sunlight, however sweet it shines
Bit by the cold of December, I m warm beside your smile
(Resume Tempo)

Oh lady tell me I m not leaving, you re everything I dream
I m killing myself thinking, I ve fallen like the leaves
I m killing myself thinking, I ve fallen like the leaves
(Slow Tempo and end on C)

END :)

My first post! I love this song. Enjoy!
