More Than Meets The Eye

```

A                D                A
1. He s got a slow slow ride, got a camera inside
G                Bm                A
He takes a picture, hangs it up to dry

                D                A
And there s one girl named, and another displayed
G                Bm                A
All the time you can t help feeling ashamed
G                Bm                D
Given new reasons to survive
G                Bm                Em A
He keeps a number of them alive
                D                F#m
There s a warning in the sky
D                F#m
A stranger passing by
                D                F#                B
And there s more than meets the eye to the guy.
```

```

2. When you re so secure, never feeling unsure
That s the time to check behind your door
Cause there s one thing said when another is meant
He s around confusing you to the end
Seeing how changeable you feel
Don t think that happiness is real
And it s hard to justify
The tangle you untie
And there s more than meets the eye to the guy.
```
