A Day In The Life Of A Tree
The Beach Boys

[Verse 1]
```
D            F#m/D        Em7/D       D7
Feel the wind burn through my skin
      Em7/D    A7/D           D
The pain, the air is killing me
        D        F#m/D         Em7/D     D7
For years my limbs stretched to the sky
      Em7/D    A7/D           D
A nest for birds to sit and sing
        G        A7      A#dim  Bm      D7                     Em
But now my branches suffer and my leaves don t bear the glow
F#m    Em7/G    A7     D
They did so long ago
```

[Verse 2]
```
D         F#m/D    Em7/D      D7
One day I was full of life
      Em7/D    A7/D             D
My sap was rich and I was strong
      D        F#m/D  Em7/D    D7
From seed to tree I grew so tall
        Em7/D      A7/D            D
Through wind and rain I could not fall
      G        A7     A#dim  Bm      D7                     Em
But now my branches suffer and my leaves don t offer
F#m    Em7/G  A7       D
Poetry to men of song
```

[Verse 3]
```
D            F#m/D                   Em7/D   D7                   Em7/D
Trees like me weren t meant to live if all this world can give
        A7/D            D
Is pollution and slow death
    F#m/D   F        Em7/D    D7                 Em7/D
Oh Lord I lay me down no life s left to be found
         A7/D            D
There s nothing left for me
(D)         F#m/D               Em7/D   D7                   Em7/D
Trees like me weren t meant to live if all this earth can give
        A7/D      D
Is pollution
    F#m/D          Em7/D      D7             Em7/D
Oh Lord I lay me down my branches to the ground
         A7/D            D
There s nothing left for me
```
