You didn t think that I could sit around and let him work

You didn't think that I could sit around and let him take you
You didn't think that I could sit around and let him go
You didn't think that I could sit back and let you go

Okay so I didn't tab it I actually found it, but it works quite well and the
only
reason why I did this is because I couldn't find it on the site.
