The Beatles

**F6**                                          **G7/13**  
This happened once before    When I came to your door  
          **C**  
No reply  
                          **F6**                                          **G7/13**  
They said it wasn't you    But I saw you peep through  
          **C**  
Your window  
                  **Am**                  **Em**  
I saw the light  
                  **F7+**                  **Em**  
I saw the light  
                          **Dm**                                          **G7/13**  
I know that you saw me    Cause I looked up to see  
          **C**  
Your face  
                          **F6**                                          **G7/13**  
I tried to telephone, they said you were not home  
          **C**  
That's a lie  
                          **F6**                                          **G7/13**  
Cause I know where you've been, I saw you walk in  
          **C**  
Your door  
                  **Am**                  **Em**  
I nearly died  
                  **F7+**                  **Em**  
I nearly died  
                          **F6**                                          **G**  
Cause you walked hand in hand, with another man  
          **C**  
In my place  
                  **C**                  **E**                  **A**  
If I were you    I'd realize    that I  
                  **Dm**                  **F**                  **C**  
Love you more    than any other guy  
                  **C**                  **E**                  **A**  
And I'll forgive    the lies    that I  
                  **Dm**                  **F**                  **C**  
Heard before    when you gave me no reply  
                          **F6**                                          **G7/13**  
I tried to telephone, they said you were not home  
          **C**  
That's a lie

**F6**

**G7/13**

Cause I know where you ve been, I saw you walk in

**C**

Your door

**Am Em**

I nearly died

**F7+ Em**

I nearly died

**F6**

**G7/13**

'Cause you walked hand in hand, with another man

**C**

In my place

**Am Em**
