

**I Need To Give This Broken Heart Away**  
**The Beautiful Girls**

**G**            **D**  
All my life I have learned  
**G**            **D**  
To say goodbye  
                 **G**  
But it still hurts  
                 **D**                            **Em**            Riff 1  
Are we defined by what we hold?

**G**            **D**  
But armor breaks  
                 **G**  
And fire burns  
                 **D**                            **G**  
On the way to lessons learned  
                 **D**                            **Em**            Riff 1  
Thoughts escape just like it burned...

**G**            **D**  
Off into the moonlight  
**Am**                            **Em**            Riff 1                            **G**  
I need to give this broken heart away  
                 **D**                            **Em**            Riff 1  
So I close my eyes..

**G**            **D**  
And wish you the goodbye,  
**Am**                            **Em**            Riff 1  
That I had hoped I d never have to say  
**G**                            **Em** Riff1  
I ll miss your smile

**G**                            **D**                            **Em** Riff1  
Oh, this may take more then a little while

And you know I m no good  
At chasing things that i should  
Another rain though I broke.

I never told you how much  
You gave to him, but  
I know you know  
And thats enough

Off into the moonlight  
I need to give this broken heart away

So I close my eyes

And wish you the goodbye,  
That I had hoped I d never have to say  
I ll miss your smile

Oh, this may take more then a little while.
