

We Will Shine Like Gold The Beautiful Girls

I really don't ever put tabs up, but this song is great and I couldn't find one up. It's super simple although the timing of the finger picking and singing can be a little tricky put together correctly. Just listen for the exact chord changes, these are just in the second half of each verse **G/D, C/E, D/F, E/G** are not the chords but the double he plays, again listen to the song. Have fun, a great one to play to your girl!
