[VERSE 1]

When the summer is fast **Am**  
The bruise will be slow **G**  
That s when I fell in love **Bm**  
With my winter rose **Am**  
And it felt just like **Am**  
An angel that came **G**  
Like a magic light **Bm**  
Like a little flame

[CHORUS]

If you say you love me **Dm**  
Then I ever owe you **Am**  
When you are full of bee **Dm**  
Then I have my eye on you **Am**  
  
If you say you love me **Dm**  
Then I ever owe you **Am**  
When you are full of bee **Dm**  
Then I have my eye on you **Am**

[VERSE 2]

**Am**  
Signs will fall to us  
                  **G**  
When the point brakes through  
                  **Bm**  
There s no kindest words  
                  **Am**  
Than the blistering truth  
                  **Am**  
People call for love  
                  **G**  
When it s almost too much  
                  **Bm**  
It s the faceless shame  
                  **Am**  
That you cannot touch

[CHORUS]

**Dm**  
If you say you love me  
                  **Am**  
Then I ever owe you  
                  **Dm**  
When you are full of bee  
                  **Am**  
Then I have my eye on you

**Dm**  
If you say you love me  
                  **Am**  
Then I ever owe you  
                  **Dm**  
When you are full of bee  
                  **Am**  
Then I have my eye on you

[INSTRUMENTAL]

[VERSE 3]

**Am**  
When the loving is fast  
                  **G**  
Then the bruise will be slow  
                  **Bm**  
That s how I fell in love  
                  **Am**  
With my winter rose  
                  **Am**  
And I will paint the face  
                  **G**  
To the clear back at me

**Bm**

I ll be lying lies

**Am**

Only I can see

[CHORUS]

**Dm**

If you say you love me

**Am**

Then I ever owe you

**Dm**

When you are full of bee

**Am**

Then I have my eye on you

**Dm**

If you say you love me

**Am**

Then I ever owe you

**Dm**

When you are full of bee

**Am**

Then I have my eye on you
