She s In Love With Time

=====

Written by Nick Saloman

[**Am**]I wish it will be here for [**G**]ever  
[**Am**]Or just till I fail to read the [**G**]sign  
[**C**]She watches the [**B**]colour  
[**D**]Fade from my [**Am**]eyes  
[**C**]I just get ol[**B**]der  
[**D**]When she gets more [**Am**]wise

Chorus:

[**G**]Cos She s in love with [**Am**]time  
[**G**](She s in love with [**Am**]time)  
[**G**]She s in love with [**F**]time  
[**G**](She s in love with [**Am**]time)

I look at her preoccupation  
Cos she can t get it off her mind  
But all of her mirrors  
Disturbing her face  
But of her hardships  
There s not a trace

All people marvel at her beauty  
And I m waiting somewhere down the line  
We once were the couple  
That drove you all mad  
Now I look like her father  
And act like her child
