

The History of Everythig
The Big Bang Theory

C D G D Em
Our whole universe was in a hot dense state,
C D G D Em
Then nearly fourteen billion years ago expansion started. Wait...
C D
The Earth began to cool,
G D Em
The autotrophs began to drool,
C D
Neanderthals developed tools,
G D Em
We built a wall (we built the pyramids),
C D G D Em
Math, science, history, unraveling the mysteries,
C D G
That all started with the big bang!

C D G D Em
Since the dawn of man is really not that long,
C D G D Em
As every galaxy was formed in less time than it takes to sing this song.
C D G D Em
A fraction of a second and the elements were made.
C D
The bipeds stood up straight,
G D Em
The dinosaurs all met their fate,
C D
They tried to leap but they were late
G D Em
And they all died (they froze their asses off)
C D
The oceans and pangea
G D Em
See ya, wouldn't wanna be ya
C D G
Set in motion by the same big bang!
C D A
It all started with the big BANG!

D G Em A
It's expanding ever outward but one day
D G Em A
It will cause the stars to go the other way,
A D Em A
Collapsing ever inward, we won't be here, it won't be hurt
A D Em A C

Our best and brightest figure that it ll make an even bigger bang!

Solo: C D G D Em
C D G D C G

C D G D Em

Australopithecus would really have been sick of us

C D G D Em

Debating out while here they re catching deer (we re catching viruses)

C D G D Em

Religion or astronomy, Encarta, Deuteronomy

C D G

It all started with the big bang!

C D G D Em

Music and mythology, Einstein and astrology

C D G

It all started with the big bang!

C D G

It all started with the big BANG!
