

Desprate Man
The Black Keys

one the * parts use a metal slide.
This isnt the whole song, i m just adding more than i ve seen on other versions.

key:
s__slide
b__bend
*__metal slide
p__pull off
t__play w/ thumb

G	G use slide	G might be a G7, try it!
t	t ~~~~~	
---3-----3-----		-3--
---3-----3-----		-3--
---4-----4-----		-4--or just G5 ---
---5-----3-----5---*3p0-3s5*--		-3--
---5-3s5-----5-----		-5--
-3-3-----3-3-----		-3--

then while he sings he just plays that 1st lick (hammered on):

```

---3-----3-----|
---3-----3-----|
---4-----4-----|
---5-----3-----5-----3-----|
---5--3h5-----5-3h5-----|
-3-3-----3-3-----|

```

repeat till he stops singing then do the second part of the intro:

```

---3-----|
---3-----|
---4-----|
---5-----|
---5-*3p0-3s5*-|
-3-3-----|

```

then:

```

-----3-----6b-----|
-----3--6b-----|
-----4----- (0) -5-----| the (0) s are very faint,
-(0)-5----- (0) -5-----| more of a pause really.
-(0)-5----- (0) -3-----|
-(0)-3-----|

```

~you could play 11 on the B string instead of the 6, but Dan doesn t.

I just came back in to edit this after watching the DVD.

-the begining he plays the bass sounding G with his thumb and its more like:

```
t  
---3-----|  
---3-----|  
---4----3-----| etc.  
---5-3h5-----|  
-3-----|
```
