Slingshot lyrics

This is the first tab I do from scratch. I m not sure if the middle parts are exactly the same, but it works well. Hope you like it.

Fm
The tighter you wind it up
The harder it s gonna hit you and
The faster that you run is how much quicker it will catch you

Gm
You can t escape from yourself
(Repeat)

Fm
You pushed it until it snapped
But now I wouldn t turn your back cause
When you least expect it s gonna
Grab you by the neck kid and...

Gm
Now that you ve made a mess
Now that you ve made a mess
