Standart tuning

Capo: 1

Intro:

**C G Am F C G** x2

**C G Am**  
You don t need looking after  
**F C G**  
you re not small and weak  
**C G Am**  
i m not your mother or your father  
**F C G**  
you ve got your own two feet

**F C Am**  
What did you do before i came along  
**F C G**  
did you walk around in a haze  
**C F Am**  
no i remember how you walked once  
**F G C**  
but my memory is fading these days

We used to talk about why things go wrong  
on everything we would agree  
and i ve stuck hard to all the things i said  
but lately you don t see

Chorus:

What made you turn around and talk like this  
what made you change your ways  
i know i never would have asked it of you  
but you re asking me these days

And would you have me give up what i love  
to be with you somewhere  
and what exactly do you mean  
when you say you care

Chorus:

And what did you see when you first met me  
and did you see it in my face  
or were you looking with your mind's eye  
at who you'd have me be these days
