Verse

What did those big eyes see in a world where nothings free?
Your innocent beauty was slipping quietly
With every turn you frown
No one to understand
Why would you feel so down?
No one to really see what a woman you could be

Chorus

Hey little girl don t look so sad itâ€™s not the end of the world
I ve seen this film before, already know the ending
Some of the faces change but the plot it stays the same
You gave your heart every moment when no one cared
They made you small they couldn t make you fall
