

Night On Earth
The Bouncing Souls

The verse, chorus, and bridge pattern is repeated so I only wrote it out once.
Goodluck and enjoy

A **E**
Passed some time on the stoop
A **D**
on the block were we used to sit
A **E** **C#m** **D**
I thought about it all too much
A **E** **A** **D**
I thought so hard I couldn't see
A **E** **A**
Pete rode by on his Hutch

Passed some time on the stoop
on the block were we used to sit
I looked down and tied my shoes
I thought about it all too much
I looked up and then I knew

[Chorus:]

D
Woah oh oh oh oh oh
A
I guess these things were meant to be
D
Woah-oh-oh-oh-oh oh
A **E**
and there's no use fighting what's in me

A E C#m D
Night on earth [x2] (listen to the song figure out the timing here)

Passed some time walking around
Looking for something to be
When I stopped to look around
All the music was different to me

All these places we used to go
When I loved you I didn't see
I'll miss you but now I'll know
Better next time because I found me
