

The Happy Song
The Box Tops

The Happy Song

E
Listen here, band up there, on the stand,
A **B7** **E**
Sing a joyful song so we can all sing too
A **B7** **E**
Hum a merry tune to us that fits our mood
A **B7** **C#m**
Simple little feelings well derive from you
A **B7** **E**
Sing us a happy little song that we can dance to

Sing us a song, a song of love and happiness
A flowing, going ride and, oh, please do your best
Light and fast, you know, but still, with tenderness
Sing us a happy little song, now, and we can do the rest

A **G#m** **C#m**
We could light the night if we just let feelings flow
F#m **B7**
Just let ourselves go, don t you know?

Instrumental

We could light the night...
(Repeat verse)
