**Bm A6 Em9** x2

[Verse 1]

**Bm**  
I wanna be in a place  
                          **A6**                  **Em9**  
With just the sight, of you and nothing  
**Bm**  
Else but the highs, the highs  
                          **A6**                          **Em9**  
The brightest hope, it s the start of something

[Chorus 1]

**Bm**                          **A**  
And I, don t fear nothing  
                          **Gmaj7**                          **D**          **F#m**  
Won t you stay, won t you stay

[Verse 2]

**Bm**  
Is it the rocks or the truth  
                          **A6**                          **Em9**  
Or just the means, to the end of something  
**Bm**  
Don t know if you think of me  
          **A6**                          **Em9**  
Any more than you let on

[Chorus 2]

**Bm**                          **A**  
And I, don t fear nothing  
                          **Gmaj7**                          **D**          **F#m**  
Won t you stay, won t you stay  
          **Bm**                          **A**  
And I, don t fear nothing  
                          **Gmaj7**                          **D**          **F#m**  
Won t you stay, won t you stay, you stay

[Verse 3]

When I think straight, this is clear to me

**A6 Em9**

Proof to prove you wrong

This is something, this is something

**A6 Em9**

That I won't leave alone

[Chorus 2]

**Bm A**

And I, don't fear nothing

**Gmaj7 D F#m**

Won't you stay, won't you stay

**Bm A**

And I, don't fear nothing

**Gmaj7 D F#m**

Won't you stay, won't you stay, you stay

**Bm**

You stay
