I m not sure this is 100% correct, but it sounds fine to me!

Standard tuning with a capo on the fifth fret. I know the chords aren t named correctly,

but I don t know the proper names :p.

Am:002210

C:032010 or 033010, whichever you think sounds better

E:022010

G:320010

Those 4 chords all the way through as far as I can tell!
