These are the correct chords for guitar for this song, all the modified chords are created by the vocals and strings. Enjoy! This is capo ed at the third fret. For chords without capo, see the bottom.

[Intro] - **Am C F C D F**

**Am C F Am**  
I climbed up a mountain and looked off the edge

**Dm F**  
At all of the lives that I never have led

**Am C F Am**  
Theres one where I stayed with you across the sea

**Dm F**  
I wonder, do you still think of me?

I carry your image always in my head  
Folded and yellowed and torn at the edge  
And Iâ€™ve looked upon it for so many years  
Slowly Iâ€™m losing your face

**Am C G D Am**  
Oh, the ocean rolls us away, away, away

**C G D**  
The ocean rolls us away

Sixes and sevens we live on jet planes  
So many faces I donâ€™t know the names  
So many friends now and none of them mine  
Forgotten as soon as we meet

All of these moments are lost in time  
But youâ€™re caught in my head like a phone on a vine  
To forever donâ€™t mend me and I wonder why  
Do I wish Iâ€™ve never known you at all?

Oh, the ocean rolls us away, away, away  
The ocean rolls us away

Oh, the ocean rolls us away, away, away  
The ocean rolls us away

**Am C F Am**  
The sun and the moon, of ocean, of air

**Dm F**  
So many voices and nothing is there

**Am C F Am**

But the ghost of you asking me why.

**Dm F**

Why did I leave?

Oh, the ocean rolls us away, away, away  
The ocean rolls us away

**Am C G D Am**

Oh, the ocean rolls us away, away, away

**C G D**

The ocean rolls us away

**Am C G D**

And I lose your hand through the waves

Chords minus capo:

**Cm Eb G# Cm**
