

**Thats Where I Lay Down**  
**The Breakmen**

The Breakmen "That s where I lay down"  
Tabbed By Stephen Turner, July 2013.

**G**  
Spring rain left when I first met you  
**D** **Em**  
With your long eyelashes and your blush of youth  
**Em**  
You tell the truth and you do your best  
**G** **C**  
But you can t see the things that you never have discovered yet  
**C** **G**  
Oh it s like that when you re lovin and young  
**D** **Em**  
From the back the mind to the tip of the tongue  
**Em**  
The kiss on your lips, your fingertips  
**G** **C**  
And I d make the same choice if I had to do it once again  
**D** **G**  
That s where I lay down  
**C**  
That s where I m gonna lay my head  
**C** **G**  
When there is no bed in any town  
**D** **Em**  
And the summer s turned the grass to brown  
**D** **G**  
That s where I lay down  
**G**  
So I worked the line, I made our life  
**D** **Em**  
And a good time woman became my wife  
**Em**  
Good as an oak through the joy and the mess  
**G** **C**  
But you never know you re leavin til you re lookin back at what you ve left  
**C** **G**  
Standin in the doorway open wide  
**D** **Em**  
In front of the pack you left inside  
**Em**  
Spring into summer, summer to fall  
**G** **C**  
It s your sun-kissed body and honey I can t take it all  
**D** **G**

That s where I lay down

**C**

That s where I m gonna lay my head

**C**

**G**

When there is no bed in any town

**D**

**Em**

And the summer s turned the grass to brown

**D**

**G**

That s where I lay down

**G**

I don t know if love comes and goes

**D**

**Em**

Or if it s rocksteady and it s me who roams

**Em**

I m coming and a going, I m passin through

**G**

**C**

And I m countin the miles until I m headin back to you

**C**

**G**

Oh livin the life I guess I wanted to

**D**

**Em**

With my pack on my back and my dusty shoes

**Em**

With your love in my pocket, I m keepin it safe

**G**

**C**

And I m carryin it home to you darling now and I can t wait

**D**

**G**

That s where I lay down

**C**

That s where I m gonna lay my head

**C**

**G**

When there is no bed in any town

**D**

**Em**

And the summer s turned the grass to brown

**D**

**G**

That s where I lay down
