CARESS - The Brian Jonestown Massacre

Tuning: standard!

So yeah, um I've never tabbed anything before, but this song rocks and I didn't see a tab for it on this site.

The song is super easy, as so many BJM songs are. The intro chord is just

B - B - B - B - B - B - B

and then the verses are

E - G - A

over and over.

for the part at the end of each verse, just do

A

and then lift your first and second finger off and back on. You have to listen to

the song to figure it out, but it gives you that quick contrasting sound that it has on the album.

after that it's just

B - B - B - B - B - B - B

and then it goes back into another verse, or the song ends.

alright, this has been my tab. i hope it worked out for you.
