A|--7-7-7/9-7/9-7-7-7-5-7-7-7/9-7----------7--------------|
E|------------------------------------------------------|
```

Verse   **A**   **D**   **G**   **D**
         I ve been out on my own
         A   **D**   **G**   **D**
         I ve been getting what s mine
         A   **D**   **G**   **D**
         I watch you grab what you can you re crazy
         A   **D**   **G**   **D**
          Cause you re all out of time

Chorus   **A**   **G**
         But you live in a dream
                           D
         And it s not going well
                           G
         There s no one who cares
                    D   **A**
          Cause your living in hell

         A D G D x2

Verse   **A**   **D**   **G**   **D**
         Well they said you ve been good

```
         A         D              G       D
         And some say you ve been bad
         A         D              G       D
         I like to laugh when your happy baby
         A            D          G      D
         You make me cry when your sad

Chorus   A              G
         I live in a dream
                                 D
         But you re living in hell
                                 G
         And there is nothing to do
                         D           A
          Cause I know it too well
               A D G D
                    A D G D
         I know it too well

Solo     A D G D x4
         A G D G D
         A D G D X4

Verse    A          D        G       D
         I ve been out on my own
         A          D        G        D
         I ve been doing real fine
         A          D            G         D
         I watch to get what you can you re crazy
         A            D         G       D
         Seems like you re all out of time

Chorus   A                      G
         Well you re living a dream
                                 D
         And it s dragging you down
                                 G
         And there s no one to help
                         D       A      D G D
          Cause there s no one around
                         A       D G D
         There s no one around
                         A       D G D
         There s no one around
                         A       D G D
         There s no one around
                         A       D G D
         There s no one around
                         A       D G D
         There s no one around
```

```
                A       D G D
There s no one around
                A       D G D A
There s no one around
```

```
                A       D G D
There s no one around
                A       D G D A
There s no one around
```
