[Verse 1]
Well a town s a town when you re upside down,
                  Am
                         Am7
Lay your bones on a bed, it s that easy
                     G
To have a kind of home
Where the money goes I know too well
                    Am
                            Am7
Spreads out like the jobs I ve worked so many
Hard days don t seem to end
[Pre-Chorus 1]
              Em
                     F
Well I m wasting time, wasting time
        C G
And I only know one way to go to start again
      C
Let it roll, let it roll
       Am
Down the banks of the Ohio
                    C
When you can t rely on what you make
To pay the rent on time
      C G
So I m goin away,
               Em
    Am
Down to the fortifio (?)
Oh way down there in Cairo, IL
I m gonna stay
[Fiddle break]

Now what do you say when the bottom falls out,
    Am Am7 F
Try to make amends with anybody
That ever caused you pain
It s no fault of mine that it should end this way
                   Am7 F
And I wont apologize to anybody
For a thing that I can t change
[Pre-Chorus 2]
                                F
             Am Em
See I m used to bein alone, used to bein alone,
       F C
See it s the only way that I know how to get to where I m goin ,
[Chorus]
Let it roll, let it roll
   Am
Down the banks of the Ohio
When you can t rely on what you make
To pay the rent on time
    C G
So I m goin away,
   Am
Down to the fortifio (?)
     C
Oh way down there in Cairo, IL
I m gonna stay
[Fiddle break]

[Pre-Chorus 3]

Woah Cairo, you build your levies tall,
I want to sit beside the water
And forget about it all.
