[Verse 2]

(Same Progression as Verse 1)

All of these guards they stand tall and defensive
Putting up walls around what was once innocent
It won't let me in, but I'm stronger than that
Cause you stole my eyes and I've never looked back

Girl, last night I forgot to mention
The way that I feel, the way that I'll remember this
When we're this young, we have nothing to lose
We just the clock to beat and a hand to choose

It's a long drive back to Vegas skies
So I don't, I make one more wrong turn tonight, so

[Chorus]

Say goodnight our first goodbye
I've only got forever and forever is fine
Just take your time
We'll stop the clock together
And know that the timing was right

[Bridge]

Em7 **D**
It's a long way down
Cadd9 **D**
Just fall into place and you'll fall into me
 Em7 **D** **Cadd9**
We'll make it out you'll see

[Chorus]

So, say goodnight, our first goodbye
I've only got forever and forever is fine
Just take your time
We'll stop the clock together

And say goodnight, our first goodbye
I've only got forever and forever is fine
Just take your time
We'll stop the clock together
And know that the timing was right
