

**Changing Horses Midstream**  
**The Camerawalls**

CHANGING HORSES MIDSTREAM

INTRO: C-D

VERSE:

**G D Am C**  
The combination is obscure like gravity pull  
**G D Am C**  
As time goes by things get unusually better  
**G D**  
Spending so much time together  
**Am C G D Am C**  
Relaxed with the thought these days were going to last

**G D**  
Your pattern was different than what it implied  
**Am C G**  
It wasn't description so much as disguise  
**D Am C**  
I was saving it up, now it's spent  
**C/G** break  
And there's no other remedy  
**Cmaj7** break  
There's no other remedy

**D**  
So now I'm

CHORUS:

**G D**  
Changing horses midstream  
**Am C**  
Although we had a good thing going  
**G D**  
Time will tell who has fell  
**Am C**  
And who's been left behind  
**G D**  
Changing horses midstream  
**Am C G**  
Wise up and give up all your fears  
**D Am C**  
Do it for love, do it for love, and nothing else  
**C/G** break **D G C9 G C9**

It's a nice day to fail and disappear

VERSE: ganun pa din...

You said you wanted what the public wants  
When all they want is public execution  
We were sliding all this time,  
Not knowing that the glider was just climbing down,  
According to Jacob

Your actions were different than what they implied  
They weren't description so much as disguise  
I was saving it up, now it's spent  
And there's no other remedy  
There's no other remedy

So now I'm

CHORUS: ganun din...

Changing horses midstream  
Although we had a good thing going  
Time will tell who has fell  
And who's been left behind  
Changing horses midstream  
Wise up and give up all your fears  
Do it for love, do it for love, and nothing else  
It's a nice day to fail and disappear

BRIDGE:

**Em**

The long goodbye of the hunger strike

**D**

People grow apart, that's how it is right

**CM7**

**G**

**C**

When insecurity towers cast shadows of doubt

**C**

**D**

Enough is enough!

CHORUS: ganun din...

Changing horses midstream  
Although we had a good thing going  
Time will tell who has fell  
And who's been left behind  
Changing horses midstream  
Wise up and give up all your fears  
Do it for love, do it for love, and nothing else  
It's a nice day to fail and disappear
