C **G**
My heart is a terrible failing
Em **B**
I am just beginning
G **D** **C** **D**
To fathom love's difficult concept
G **D** **C** **D**
Swift beats are bending my mindset

Em D
It's wasting my time
C **D**
It's wasting so much precious time
Em **D**
Touring white castles with other survivors
C **D**
And then without warning I was

Chorus:

G **D**
Clinically dead for sixteen hours
Em **Bm**
Show me all the things my heart desires
C **G** **Em** **D**
Let this be the longest happy dream of my life
G **D**
Clinically dead for sixteen hours
Em **Bm**
Crossing all the roads where lines began
C **G** **Em** **D**
Break my hourglass and let the sands move in time

Adlib: **C D Em D**

C D Em

(repeat)

C **D** **Em**

Three short moons I survived that fatal day

C **D**

But reaching breaking point,

Em

I sleep and face the knife of fate

C **D** **Em**

And my heart breathe air for the first time

C **D** **Em**

Yes, my heart breathe air for the first time

G **D** **Em D**

A stitch in time and skin

G **D** **Em D**

Has changed my life and the lives of my kin

G **D** **Em D**

A stitch in time and skin

G **D** **Em D**

Has changed my life and the lives of my kin

Em D

Iâ€™m keeping my time

C **D**

Iâ€™m keeping my precious little time

Em **D**

Touched by the Hand thatâ€™s been rocking my cradle

C **D**

Iâ€™ll always remember

(repeat chorus)

Em

No tunnel, no light

D

No dead love ones

C **D**

Maybe I need to teach someone

G **D** **C** **D**

That we wonâ€™t realize what we have till we lose emâ€|

G **D** **C** **D**

That we wonâ€™t realize what we have till we lose emâ€|

G **D** **C** **D**

That we wonâ€™t realize what we have till we lose emâ€|

G **D** **C** **D** (repeat adlib 2x here)

That we wonâ€™t realize what we have till we lose emâ€|
